Some girls actually smile, and others merely peel their lips back to show they have pretty teeth.

Funny how fast things change in this country. Before the war a fellow referred to it as a "position" and now he calls it a "job."

Many a man who doesn't believe in advertising feels like the whole world sees it when his name is misspelled in the paper.

No man ever gets so busy but he has time to listen to the fellow who wants to tell him that he is a fine citizen.

Solomon didn't pay income tax. Neither would you if you had to buy dresses for six hundred wives.

BARRING THE JAPS
 Nebraska, with her many foreign born aliens, has recently enacted a law prohibiting all aliens acquiring title to land. There seems to be no reason to doubt that many other states will follow her lead in such elimination of alien landholders, who have not already bought real estate. Whenever such laws are passed the road to real estate ownership by the Japanese will be closed. And today, as every resident knows, the Japanese question is one of the biggest and most serious this nation has to face.

Aliens from Europe can quickly become citizens of the United States and thereby escape from provisions barring them from owning land, but the Japanese and Chinese will be unable to do this. They must remain aliens and landless, unless they already own real estate, where such laws as the one enacted in Nebraska are passed.

Every incident like the one in Nebraska helps California and the other Pacific coast states in their struggle to stop the spread of Japs owning land and the multiplication of Japanese in this country. Every measure adopted by a state far from the Pacific ocean which checks alien progress in real estate buying and makes citizenship in this republic the open door to important privileges, strengthens the western states, and at the same time serves to make the entire United States a great deal more safe from a mighty bad mixup with the old world in the years to come.

BOOZE AT THE BORDER
 A shipment of 200 barrels of whiskey from San Francisco to Tia Juana has been halted on the plea that the cargo is rather large for medicinal purposes. It might seem so at first but there are a lot of sick people around Tia Juana and the hills back of it are full of rattlesnakes. If any American citizen now in Mexico should die of snake bite his relatives might sue the government for a million dollars' damage because of the delay in providing the necessary relief. This is a question not to be brazenly sneered at. We have had war with Mexico before for a lesser one.

Every mother thinks that her boy acquired his meanness from that meanly kid next door.
